

PERSONAL PROFILE

Data Analyst with a Bachelor's degree in Informatics Engineering from UIN Sunan Gunung Djati Bandung and an Associate Data Analyst certification from BNSP. Currently working as a Data Analyst at PT Alita Praya Mitra, developing automated dashboards for Data Center and fiber optic network monitoring using Tableau, Looker Studio, and Python to support operational reporting and decision-making. Previously worked as a Data Annotator at NoLimit Indonesia, specializing in large-scale data monitoring, classification, and validation. Proficient in Python (Pandas, NumPy, Scikit-learn), SQL, data preprocessing, exploratory data analysis (EDA), machine learning, and dashboard development, with strong analytical thinking, problem-solving, and communication skills.

EDUCATIONAL BACKGROUND

UNIVERSITAS ISLAM NEGERI SUNAN GUNUNG DJATI

Teknik Informatika – IPK 3.9/4.00

September 2022 – June 2026

EXPERIENCE

DATA ANALYST – PT ALITA PRAYA MITRA

Data Analyst

June 2026 - Now

- Monitored fiber optic network site facilities through interactive dashboards to support operational visibility and preventive maintenance.
- Developed and maintained dashboards for network infrastructure monitoring by integrating and visualizing operational data.

DATA ANNOTATOR – NOLIMIT INDONESIA

Data Validation

Feb 2026- May 2026

- Validated and reviewed sentiment analysis results across multiple brand monitoring projects.
- Ensured annotation accuracy and data consistency to maintain high-quality datasets for analytical and AI model development.

DATA SCIENTIST COHORT – CODING CAMP DBS FOUNDATION

Participant

Jan 2026- June 2026

- Completed intensive training focused on data analytics, data preprocessing, exploratory data analysis (EDA), and machine learning.
- Developed end-to-end data projects, including data cleaning, modeling, evaluation, and visualization.

FULLSTACK DEVELOPER COHORT – CODING CAMP DBS FOUNDATION

Participant

Jan 2025- July 2025

- Participated in intensive training in both frontend and backend development.
- Built scalable web applications and collaborated in team-based projects.

FRONTEND COORDINATOR – INFORMATICS DIGITAL SERVICE

Frontend Coordinator

Dec 2024 – Jan 2025

- Led frontend team, standardized code practices, and optimized workflows.
- Led weekly sprint meetings, code reviews, and mentoring sessions to boost collaboration and skill development within the team.

PROJECT MANAGER – VILLAGE GOVERNMENT PROGRAM

Project Manager

Dec 2024 – Feb 2025

- Managed communication with village authorities.
- Oversaw technical execution of the development project.

HIMPUNAN MAHASISWA TEKNIK INFORMATIKA (HIMATIF)

Treasurer of the Division

Aug 2023 – Mar 2024

- Budget management for multiple events.
- Led semi-autonomous student organization (BSO) activities.

PROJECT

Automated Data Center Monitoring Dashboard

Data Analyst Project

Jul 2026

- Developed an automated monitoring dashboard for Data Center operations using Python, Pandas, Plotly, and Streamlit to visualize operational performance in real time.
- Automated data processing and deployed the dashboard on Streamlit Community Cloud to support monitoring and reporting.

Gold Price Prediction Dashboard

Data Analyst Project

Jun 2026

- Built a machine learning model using Python, Pandas, NumPy, and Scikit-learn to predict gold prices through data preprocessing and exploratory data analysis (EDA).
- Developed and deployed an interactive prediction dashboard using Streamlit Community Cloud for real-time forecasting.

E-Commerce Analytics Dashboard

Data Analyst Project

May 2026

- Developed an interactive e-commerce dashboard using Python, Pandas, Plotly, and Streamlit to analyze sales performance, customer behavior, and business KPIs.
- Performed data cleaning, transformation, and exploratory data analysis (EDA), then deployed the dashboard on Streamlit Community Cloud.

Interactive Dashboard for Sales Performance Evaluation

Data Analyst Project

Jan 2026

- Developed an interactive sales performance dashboard using Looker Studio to monitor key business indicators and streamline executive decision-making.
- Conducted end-to-end data cleaning, transformation, and exploratory data analysis (EDA) to extract actionable business insights and optimize sales strategies.

UI Development in IF Digital Curriculum Module (Frontend Developer)

Frontend Development using TypeScript

Jan 2025

- Developed user interfaces as part of the Informatics Engineering digital curriculum module.
- Utilized TypeScript to build scalable, maintainable, and type-safe frontend components.

PUBLIC SERVICE PLATFORM (PROJECT MANAGER)

Website & Mobile App for Community Services

Dec 2024

- Led the development of a public service platform aimed at simplifying administrative processes and enhancing community engagement.
- Coordinated tasks among cross-functional teams and managed project timelines and deliverables.

SEMANTIC-BASED HADITH SEARCH ENGINE (QA & RESEARCH INTEGRATION)

Human-Computer Interaction (HCI) Major Project

Oct 2024

- Contributed as Quality Assurance lead and research integrator in the development of a semantic-based hadith search engine.
- Ensured semantic accuracy, relevance, and functionality through rigorous testing.

RAILWAY DATABASE SYSTEM (TEAM PROJECT)

Database Systems Course Project

July 2023

- Designed and implemented a relational database system for railway management using MySQL.
- Worked collaboratively in a team to plan schema structure and present the final solution.

CERTIFICATES

- **BNSP (Badan Nasional Sertifikasi Profesi) LSP - Data**

1. Associate Data Analyst | 2025

- **Dicoding Indonesia**

1. Data Processing Fundamentals | 2026
2. Data Analysis Fundamentals | 2026
3. Machine Learning for Beginners | 2026
4. Fundamentals of Data Science | 2025
5. Prompt Engineering for Software Developers | 2025

6. Fundamentals of Cloud Computing and Generative AI on AWS | 2025
7. Intermediate Web Development | 2025
8. Beginner Back-End Development with JavaScript | 2025
9. Fundamentals of JavaScript Programming | 2025
10. Fundamental Front-End Web Development | 2025
11. Front-End Web Development for Beginners | 2025
12. Fundamentals of Git and GitHub | 2025
13. Fundamentals of Web Programming | 2025

- **Oracle Academy**

1. Database Programming with SQL | 2024
2. Database Design | 2024

- **Coding Studio**

1. Fundamentals of Algorithms | 2024
2. Fundamentals of MySQL Database | 2024

ACHIEVEMENTS

- Published Undergraduate Thesis titled "Implementation of Hybrid Retrieval Using IndoLegalBERT for Text Classification" in the UIN Sunan Gunung Djati Bandung Institutional Repository | 2026
- Published Scientific Article titled "XGBoost and Mixed Effect Model: Can Zakat (Alms) Improve the Human Development Index in Indonesia?" in a SINTA-Indexed National Journal and Google Scholar | 2026
- Silver Medal, International Invention Competition for Young Moslem Scientists (IICYMS), for the project '*Sentiment Analysis Approach for Identifying Emotional Imbalance in Daily Reflections*' | 2026
- 1st Place – Campus-level Videography Competition | UIN Sunan Gunung Djati Bandung | 2024

SKILLS

TECHNICAL SKILLS

- Data & Analytics: Python (Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn), SQL, Exploratory Data Analysis (EDA), Data Cleaning & Preprocessing, Data Visualization.
- Business Intelligence Tools: Looker Studio, Tableau.
- Frontend: HTML, CSS, JavaScript, TypeScript, Bootstrap.
- Backend: PHP (Laravel), Java (Spring), Node.js (basic).
- Database: MySQL, MongoDB, Oracle, Elasticsearch, Redis.
- Programming: C++, Java.
- Tools: VS Code, GitHub, Canva, Google Colab.

SOFT SKILL

- Public Speaking
- Leadership & Teamwork
- Adaptability & Time Management

BAHASA

1. Bahasa Indonesia (Native)
2. English (Intermediate)
3. Bahasa Sunda (Native)
